This 3-plow tractor was one of the most popular and succesfull of all other tractors in it's class.. The traits included (a) 'tricycle' (a single front wheel or narrowly spaced pair), high, quickly adjustable, excellent visibility all around and under the machine, and light weight; (b) sufficient power for plowing and harrowing, and a belt pulley for belt work; and (c) all at low cost, with a familiar brand and an extensive distribution and service network.. The original Farmall is widely viewed as the first tractor to combine a set of traits that would define the row-crop tractor category, although competition in the category came quickly.
